What Our Customers Say

"In July I was admitted to the ICU for pneumonia. About four weeks later, I started to feel a cold coming and heading into my lungs. As soon as I felt that I took my purify discs and put them on... I noticed within a very short time my lungs were clearing and I was breathing better. The cold stayed out of my lungs." - Laura McKibbon

"I began using the Purify Disc... First, I used it on my foot, then the other foot. Interestingly, it seemed to help with the discomfort that had been in my legs. I am so thrilled with the results so far and have tremendous hope for the future." -Bruce Smith
