

An Extraordinary Product

Now With Protection From Fleas, Ticks And Mosquitoes

For effectiveness against these parasites, PetTags must be worn any time the animal is outside. The Pet Tag makes the pet's body less attractive to fleas, ticks and mosquitoes without the dangerous side effects from chemical-based products. Your pet must wear the Pet Tags for 2 to 3 weeks to realize their full effectiveness in repelling parasites.

Money Back Guarantee

Body Align offers a 30 day money back guarantee. Contact Customer Service to return your unused product within 30 days and you will receive a refund.

What Customers Say

Karin

Just a quick update. I took Buddy for his first walk yesterday, 1 1/2 weeks after getting the tag on him. He amazed me stepping out more strongly and securely not wobbling or stumbling at all. We had a really good time and stayed out a full hour !! He was alert and interested and showing me where HE wanted to go! Wishful thinking or not. Buddy is definitely doing better and acting younger than he has in recent memory! Thanks for helping him!

Becky Elder

Prissy had been having seizures and was on anti-seizure meds which came with negative side-effects. She began wearing her Pet Tag about three weeks. She was immediately able to come off the anti-seizure meds that she was taking daily. She has remained seizure-free and has had lots of energy. Her appetite is hearty. She is back to my sweet Prissy! My little teacup Chihuahua feels great! Thank you so much for introducing me to this phenomenal Pet Tag, it really works! Very happy.

Gloria

While I was visiting my niece I noticed her dog had a skin condition that was driving her crazy with itch (I had just signed up with BA but didn't have my kit yet) ...we put a Pet Tag on the collar and secured it with tape. It was not but a few minutes when the dog was lying down comfortable and asleep. Do I believe in the miracle of BA? I sure do !! Dogs don't know about the "Placebo effect"! This is for real !!

A Product For People Who Love Their Pets

Your Favorite pets can have the same physical challenges you do. They're part of the Family and nothing can be more heartbreaking than seeing the animal you love lethargic or in pain.

To make matters worse, they can't tell you how badly they feel, but you can see it in every movement they make.

But there's good news! Your pets can benefit from Body Align H3 technology just like the rest of your family.

The Pet Tag brings the combined benefits of the Body Align Action Disc, Relief Disc, and Purify Disc directly to your pets... just at a lower strength. When you attach a Pet Tag to your pet's collar, you'll be surprised how quickly you see bounce and vitality returning to your favorite friend.

How To Use The Pet Tag

Pet Tags are designed to bring the benefits of Body Align products to your favorite pets. They're a simple way to make your pets feel better by getting the benefits of the Action Disc, Relief Disc, and Purify Disc in a simple tag that can be attached to their collar.

When To Apply The Pet Tag

Pet Tags are designed to be attached to your pet's collar and worn throughout the day. They contain the holographic information found in Action Discs, so, you should avoid having your pet wear the tag during the periods they normally sleep.

Although Pet Tags are most commonly used with dogs and cats, they can be used with any kind of animal no matter what the size.

Pay attention to your animal's behavior. They will tell you when they need more energy or pain relief. Plus, any time the Pet Tag is worn, they will receive the benefits of a gentle detoxification and protection from fleas, ticks and mosquitoes.

Where To Apply The Pet Tag

Use the small ring that's included with the Pet Tag to attach the tag directly to your pet's collar or walking harness. For very small animals like birds, hamsters and guinea pigs, you can use the ring to attach the Pet Tag directly to their cages. In general, the closer the Pet Tag is to the animal's skin, the more effective it will be.
