What Our Customers Say

"I received my Chiropractic license in 1967 and Acupuncture certification in 1974 ... and I have treated my wife since 1969. She has needed treatment almost daily for 20 years for either headache, neck pain, back pain or leg pain and has had really bad headaches for many years. She has been wearing the [Wristband] now for about 4 weeks. During that time, I have noticed the she no longer has the headaches, she doesn't need her neck, back or legs fixed." - Dr. Larry Shaw

"Before using the BodyAlign [Wristband] everytime I stood up from a seated position I felt like I was gonna pass out [from] severe head rush and balance issues. Now from using the wristband I can stand up without any of those dreadful issues anymore." -Jason Orman Author of "Conversations With Millionaires"
